## CABLE MANAGEMENT PANEL

BDCM

- Cable Management Panel with metal fingers and cover.
- Metal base is powder coated to provide protection against scratches and rust.
- A metal cover provides security and aesthetics.
- Available as a 1-rack unit (1U) item.
- Compatible with standard 19" equipment racks.

The BOSS Cable Management Panel is a superior product delivering excellent cable management support when used in conjunction with other BOSS Series product.

The Panel is a 1 Rack Unit (1U) item designed for use in 19" rack environments, managing Patch Cords/Cables that are connected between Patch Panel and/or Hubs. The product is generally mounted between Patch Panels/Hubs.

## PATCH PANELS

BDPP24CAT5

BDPP24CAT6

- 110 IDC Termination
- Rear Cable management.
- Flexible labeling, can be on front or rear.

The Boss Category 5e or Category 6 Patch Panel are a versatile and economic means of cross connecting between vertical and horizontal cabling.
